

Completing the Inspection Report, Continued

5. Information blocks (continued)

Individual License Codes:

QAL – Qualified Applicator License	JP – Journeyman Pilot
QAC – Qualified Applicator Certificate	OPR – Structural Operator
PAC – Private Applicator Certificate	FR – Field Representative
PCA – Pest Control Adviser	RA – Registered applicator*
AP – Apprentice Pilot	UNL – Unlicensed
DA – Designated Agent	N/R – License Not required

* This is the designation for a structural applicator.

c) **Business Type / Permit or Operator ID Number / Business License Number**

Business Type

Indicate the “Business Type” by checking the applicable box. If the firm is operating legally without a license or permit, check “N/R” (not required). Check “UNL” (unlicensed) if the firm is not licensed or permitted and performing an activity that requires a license or permit.

Property Operator - a category used to capture those entities that are conducting an activity on property they own or control such as growers or government agencies.

Pest control business (PCB) – a category for firms operating as a pest control business (other than structural). DPR issues this business license.

Maintenance Gardener – a subcategory of PCB for businesses that apply pesticides incidental to landscape maintenance.

Structural pest control business (SPCB) – a category for businesses that apply pesticides in or near structures to control pests that invade structures. The principal office is designated by “PR”. The branch office is designated by “BR”. Check the appropriate box on PR-ENF-110.

Note: When performing a Pest Control Adviser Records Inspection (PR-ENF-109), check “N/R” for business type.

Permit / Operator ID Number

If you checked the Property Operator box, either list the permit or operator ID number or check “not required” (N/R) or “unlicensed” (UNL) box. **NOTE:** If the Property Operator has a permit, but the pesticide(s) being used does not require a permit, list the permit number and check “N/R.”

Completing the Inspection Report, Continued

5. Information blocks (continued)

Permit / Operator ID Number continued

If the firm/person applying the pesticide does not have a permit or ID number and the pesticide(s) being used does not require a permit or operator ID number, check the N/R box. If the pesticide(s) being used is a restricted use pesticide requiring a permit, but the property operator does not possess a restricted materials permit for the pesticide(s) or for the location, then check the “UNL” box. If the firm/person applying the pesticide is applying pesticides in a manner that requires an operator I.D. number but does not have an operator I.D. number, document the violation and explain the circumstances in the “Remarks” section.

Agricultural Business License Number

List the business license number for the business type that you checked. Beginning in January of 2010 all DPR licenses (principal and branch) will be five or six digits.

Structural Business Registration Number

Document the structural business registration number and individual license number in the boxes provided. Include the “PR” (principal) or “BR” (branch) designation as part of the registration number.

e) Firm Mailing Address

List the entire address (including city and zip code). If more space is needed, use the “Remarks” section.

f) Property Operator

Print the name of the person that has primary control over activities performed on the property. Control may be gained through ownership, rent, lease or contract agreement. If the name is the same as “Firm Inspected” you may print “Same.”

g) Property Location/Site ID

Print the physical location (such as address, cross streets, canal/gate, or other standardized location references). For production agricultural sites, include the site identification number.
